## Little Dog Tips

Little Ways To Make A BIG Difference In Your Dog's Life

Dear << Test What's your name? >>>,

Have you been hearing about dog parents getting burned by those fly-by-night CBD companies?

You know, the ones who say their product can cure all that ails your dog, yet some of their products **have been shown to contain no CBD at all.**

If you've been looking for a natural way to help manage your dog's anxiety, but you've found that therapeutic treats didn't help, it's time to try a product that's **third party tested** for purity and to confirm that it **actually contains the CBD content stated on the bottle.**

If you're like me and you lose sleep over what you put in your dog's body, you'll love **HempMy Pet.**

Their treats and oils are made with organic, USA-sourced ingredients, their products are third-party tested, and best of all, their treats come in a tasty pumpkin flavor that your dog will drool over.

You'll save \$30 when you get the Large Wellness Bundle, which includes a tincture, coconut oil, and those tasty Pumpkin Harvest treats.

The treats are perfect for taking along to the vet and the tincture is handy for keeping in the medicine cabinet when you need something full-strength and fast-acting.
